

Our Transportation Practice is a full service wholesale brokerage.

Max's transportation brokers have a combined experience of 100 years – almost as many years since the first Ford car rolled off the production line. As a result, our team truly understands the intricacies and requirements of the trucking and transportation sector; many with first-hand knowledge having worked as truckers, specialist underwriters and retailers. At Max, we can handle any transportation-related risk. Our collaborative, solution oriented team approach allows us to quickly and accurately structure and source the right coverage. We have an extensive stable of carriers who seek a wide variety of transportation risk appetites. Additionally, we have the ability to offer exclusive and semi-exclusive transportation programs that fit very specific client needs.

While we can navigate any industry sector or coverage need, we are especially knowledgeable in the following areas:
